

## **COOKIE POLICY**

On this website we use cookies. By using our website you agree to our usage of cookies.

Cookies are files sent by web servers to web browsers, and stored by them. Then, the information is sent back to the server every single time when the browser requests a page from the server. This mechanism enables a web server to identify and track web browsers.

We use cookies for different reasons. As there are no industry standard options for disabling cookies without fully or partially disabling the functionality or features they add to this site we recommend to leave all cookies on, especially in case that you are not sure whether you need them or not.

If you do not want cookies you can disable them by adjusting the settings on your browser. However, please remember that disabling cookies can affect the functionality of this and others websites. We strongly advise not to disable cookies.

We may also use cookies that are provided by third parties. Those are cookies used mostly for analytics issues. Those files track and measure usage of this site. They may collect and analyze such data as amount of time that you spend on this site, type of information that you are looking for, and others that helps us to understand how we can develop the site for you.

Please understand, that it is very important for us to learn from statistics about how many visitors our site actually makes and how many of them make a purchase or query. It is a great guidance for business predictions that allow us to monitor our advertising and product costs to ensure you the best possible price.

From time to time we need to test new features or make change slightly the way of delivering the site. When those actions are on process these cookies may be used to ensure that you are still receiving clear and useful content.

We hope that this document has clarified cookies issues. As was previously mentioned if there is something that you are not sure whether you need or not it's simply safer to leave cookies enabled in case it does interact with one of the features you use on our site. However if you are still looking for more information contact us through contact form.
